100% Recycled Paper® Packaging for Protecting Your Product and the Environment

Custom Wrap™ Wadding Materials

Flexible
- Multi-layers of pliable tissue provides excellent edge protection.
- Conforms to the product, easily wrapping around any edge, while reducing labor costs.

Absorbent
- Contains liquid spills in the package preventing weakening of the carbon during shipment.
- Ideal as a liner for animal cages and as an absorbent mat when combined with a polyethylene backing. Fewer changes are required reducing material and labor cost.

Non-Abrasive
- Soft surface provides superior protection against scratching and marring on wood and other fine finishes.

Custom Wrap™ and Kushion Kraft® Products Available as:

- Stock rolls — variety of standard sizes for fast delivery with multidirectional perforations for easy dispensing and material control.
- Custom products — multiple combinations of soft tissue and rugged kraft paper along with film and paper backings available for special requirements.
- Tan for industrial and government applications requiring Federal Commercial Item Description A-A-1898C, GRADE II material.
- White for gift items, pharmaceutical and surgical products.

Kushion Kraft® Packaging Materials

Efficient
- Better cost effective dunnage than standard wadding products.

Resilient
- Indented kraft plies "spring back" to provide long-term cushioning even after repeated impact.
- Excellent void fill product for dunnage applications.

Puncture Resistant
- High tensile and tear strength for rugged applications with sharp protrusions and edges.

Commercial Item Description A-A-1898C

- Orders to meet A-A-1898C must be acknowledged in advance of manufacturing.
- Kushion Kraft® stock rolls do meet Grade II, Class C (highest strength requirements) of A-A-1898C.
- Grade I (Absorbent) is not offered.
