CLASSIFICATION OF EXPLOSIVES

Based upon a request by Dyno Nobel North America, (Formerly, The Ensign-Bickford Company), Crossroads Tower, Eleventh Floor, Salt Lake City, UT, the following items are classed in accordance with Section 173.56, Title 49, Code of Federal Regulations, (49 CFR). A copy of your application, all supporting documentation and a copy of this approval must be retained and made available to DOT upon request.

U.N. PROPER SHIPPING NAME AND NUMBER:
Pentaerythritol tetranitrate, wetted [or] Pentaerythritol tetranitrate, wetted, [or] PETN, wetted [with not less than 25 percent water, by mass, or] Pentaerythritol tetranitrate, [or] Pentaerythritol tetranitrate [or] PETN, desensitized [with not less than 15 percent phlegmatizer by mass], UN0150

U.N. CLASSIFICATION CODE: 1.1D

REFERENCE NUMBER
EX1983080050

NOTES:
This classification is only valid when the non-electric detonators are packaged by one of the two following methods:
Packaging Method for Detonators Containing More Than 550 Milligrams of PETN --
Inner Packaging - Trayblock, flame retarded compressed pulpboard with recessed cavities and a chipboard oversleeve, each containing not more than twenty-five (25) detonators in up to a 5x5 offset array with a unit-to-unit distance not less than 1.25 inches between any two devices. Intermediate Packaging - Box, fiberboard, each containing not more than four (4) inner packagings which have been previously overpacked in a foil barrier bag. Outer Packaging - Specification 4G fiberboard box, each containing one intermediate packaging.
NOTE: Con't – EX2002010271

Packaging Method for Detonators containing 550 milligrams or less of PETN:
Inner Packaging - Trayblock, flame retarded compressed pulpboard with recessed
cavities and a chipboard oversleeve, each containing not more than fifty (50) detonators in
up to a 5 x 10 offset array with a distance not less than 0.625 inches between any two
devices. Intermediate Packaging - Box, fiberboard, each containing not more than four
(4) inner packagings which have been previously overpacked in a foil barrier bag. Outer
Packaging - Specification 4G fiberboard box, each containing one intermediate
packaging.

**U.N. PROPER SHIPPING NAME AND NUMBER:**

NOTES:
This classification is only valid when the detonator assemblies are not less than 30 feet in
length and are packaged in the following manner:
For 30 foot lengths only -
Inner Packaging - Bundles, affixed with wire, each containing not less than twenty (20)
assemblies.
Outer Packaging - Specification 4G fiberboard box, each containing not more than four
(4) inner packagings.

For 50 foot and longer lengths -
Inner Packaging - Bundles, affixed with wire, each containing not more than five (5)
assemblies.
Outer Packaging - Specification 4G fiberboard box, each containing not more than
twenty-eight (28) inner packagings.

U.N. CLASSIFICATION CODE: 1.4B

REFERENCE NUMBER  PRODUCT DESIGNATION/PART NUMBER
EX2002060005          DUAL EZTL non-electric delay detonator

NOTES:
This classification is only valid when the non-electric detonator body is contained within
a separately molded plastic connector block, the shock tubing does not exceed 0.15
inches in diameter and is not less than 12 feet in length, and the detonator assemblies are
packaged as follows:
Inner Packaging - Not necessary
Outer Packaging - Specification 4G fiberboard box, each containing not more than ninety
(90) devices.

U.N. PROPER SHIPPING NAME AND NUMBER:
Detonator assemblies, non-electric, [for blasting], UN0361

U.N. CLASSIFICATION CODE: 1.4B
### Reference Number
EX2002060006

### Product Designation/Part Number
OPTISURFACE II (240)

#### Notes:
This classification is only valid when the non-electric detonator body is contained within a separately molded plastic connector block, the shock tubing does not exceed 0.118 inches in diameter, the lead azide base charge does not exceed 260 milligrams, and the detonator assemblies are packaged as follows:

**Inner Packaging - Dividers, cardboard egg-crate design, each containing one device per cell and not more than one hundred (100) devices in up to a 10x10 array.**

**Outer Packaging - Specification 4G fiberboard box, each containing not more than two inner packagings, separated with a fiberboard pad.**
